Connect with employers on campus

We offer many ways for students to network with prospective employers without ever leaving campus. Here are just a few ways to pursue career options at the Mike Ilitch School of Business.

Career fairs

Recruiters from local, regional and national accounting firms are invited to network with accounting and finance students and alumni during our Meet the Accounting Firms career fair. And more than 40 organizations send recruiters to meet with students and alumni from all business majors for both internships and full-time positions during our school-wide career fairs in the fall and winter each year.

Employer visits to campus

Meet and greets allow company representatives to introduce their businesses in the relaxed atmosphere of the Ilitch School atrium. Company presentations are opportunities for students and alumni to get a better understanding of organization's culture and available positions in a structured discussion with recruiters.

Students and alumni can attend additional career events and employer-hosted workshops that cover a broad range of topics, including résumé building, interview preparation, networking, and professional dress and etiquette.
