

## STAR Interviewing Practice Worksheet

Use the following worksheet to prepare answers to behavioral interview questions using the STAR format. Using these notes as a guide, practice answering these questions aloud in preparation for your next interview. This worksheet only touches on a few behavioral interview questions. Ideally, you will want to prepare answers to more behavioral questions in addition to those provided here. If you are having trouble completing this worksheet, be sure to watch the brief STAR Interviewing Workshop and revisit the STAR information in the Interviewing Practice Guide.

**Tell me about a time that you made a mistake and how did you handle it.**
